Job Vacancy at ZillaParishad, Nagpur Data Analyst

Introduction:

ZillaParishad Nagpur is the district self-government body working towards rural development. Various Central and State government schemes in the field of health, education, infrastructure, agriculture, livelihood generation and social sector are implemented by the ZillaParishad.

To aid the working of its existing departments, ZillaParishad, Nagpur is building a Research and Analysis cell for data driven and evidence based smart governance under Information and Technology head. In order to implement different schemes, large amount of data is collected at the district and block level which needs requires intelligent data analysis and data visualisation for effective monitoring. Further, the ZillaParishad takes up various innovative measures that require proper documentation and reporting for replicating and scaling up.

In view of above, the ZillaParishad is looking to recruit 1 candidate on contractual basis for the position of 'Data Analyst' with relevant expertise and experience. Candidates willing to work at the grassroots level with the high authorities of district administration in the field of rural development are welcome to apply for this position. Candidates are advised to visit Nagpur ZillaParishad website <https://nagpurzp.com> to understand the structure and functions of ZillaParishad before applying.
